

## TRESCAL ACQUIRES QUALITY SERVICE TO PENETRATE LIFE SCIENCE MARKET IN ITALY

Paris, France – September 11, 2023 – Trescal, the global leader in calibration services, announced that it has acquired Quality Service to gain entry to the Italian life science market and reinforce its geographic coverage. Quality Service represents 4.5M€ in sales and employs 30 people.

Founded in 1996, Quality Service provides accredited calibration, qualification and validation services to major players in the life science as well as food and beverage industries. Its offices, near Venice and Pescara, cover northern and central Italy. Quality Service will add capabilities in pipettes, scale, volume while improving existing temperature and humidity scopes in Trescal Italy.

Guillaume Caroit, Trescal CEO: “With this acquisition, we continue to pursue leadership in precision services for the life science and food and beverage industries, which now represent close to 25% of our sales globally.”

### ABOUT TRESCAL

Trescal is the global leader in calibration services. It offers an array of industries a single-source solution for calibration, measurement, repair, qualification, validation and asset management across the globe. Its technicians and experts carry out accredited and non-accredited services for all measured variables and measuring instruments in all technical domains. About 5,000 people work at Trescal around the world to perform 3.3 million operations per year, including 27,000 repairs across 150,000 types of instruments and 20,000 brands.
